

DS-K4E208 specifications

Product Picture

- Technical Parameters (Unit: MM)
- Lock Body Size: 366(L)X(W)105X(H)50 (MM)
- Input Voltage: 12VDC
- Working Current: 3A
- Working Temperature: -40+80℃
- Suitable door: wooden door、metal door
- Unlocking mode: electric impulse or mechanical key
- Weight: 1.5KG

PCB diagram: N/A

Installation diagram:
